

THE "DIAMOND" RANGE OF ACCESSORIES

FENCE

Fully adjustable, for use in line or across the table.

FLEXIBLE DRIVE SHAFT

52" long with 1/4" chuck and key fitted to take all standard 1/4" shank accessories, wire brushes, rotary files, rasps, sanding drums and discs, grindstones, mops, small drills, etc. **STRONG GOOD QUALITY SHAFT!**

FOOT CONTROL SWITCH

With 2 metres of cable used in addition to normal switch. Leaves both hands free on STOP/START jobs.

NVR SWITCH

(no voltage release switch)

Can be fitted to any machine. This switch prevents machine restarting itself after a mains power failure.

HOLD DOWN SET

With adjustable foot and blade guard. Helps to hold work down on some sheet material, etc.

TYPE 7 QUICK ACTION BLADE HOLDERS

These are for fret and piercing saw blades only.

Designed for rapid blade changes, countersunk hole to insert blades quickly. Can even be used by the BLIND!

ANOTHER FIRST FROM "DIAMOND"

THE "DIAMOND" PATENT TOOLBRIDGE

This unique device has been specially designed for the Model Engineer and Clockmaker, but we have found so many other uses for it in the woodworking of veneers and plastics — slotting — circle turning — deep scrolling — stack sawing and repetition work, etc, that it opens up a whole new world of operations for the fretsaw machinist.

It consists of a very strong slotted steel plate supported 3" above the table on alloy supports clamped direct onto the table to ensure no movement for perfect accuracy.

It has 2 adjustable hold down feet and a back support for the blade to prevent bending under pressure. Machined from solid steel and plated, many other jigs and accessories can be fitted.

NO OTHER FRETSAW MANUFACTURER IN THE WORLD HAS THIS ACCESSORY

ATTACHMENTS FOR THE TOOLBRIDGE

2½" ADJUSTABLE MAGNIFIER X 2 With mounting bracket

CIRCLE CUTTING JIG 0 to 8" DIA

8" FENCE WITH ADJUSTABLE BACKSTOP AND FOOT

18" LONG x 6" STEEL BASEPLATE FOR METALWORKERS

BLADES FOR "DIAMOND" FRETSAWS

Our machines will take more types of blade than any other fret/scroll saw in the world.

Please see the great variety in our blade list.

A "DIAMOND" FRETSAW IS NEVER OBSOLETE - WE WILL ALWAYS SUPPLY SPARE PARTS. ALL NEW ATTACHMENTS WILL STILL FIT THE OLDEST "DIAMOND" FRETSAW.
